Afterword

I want to thank you all for bringing this second volume out, and the third volume is coming out too!

I never even imagined I could have a first and second volume.

Hello, my name is Sachino.

While I was writing, the word "destiny" popped up so much that I didn't even know what was going on anymore. But thank you to all the readers who stuck it out until now. If such a caste system existed in modern-day Japan, a

better profession wouldn't be too bad!

It's this sort of apparent thinking that makes me want to punch myself.

I caused my editor a load of trouble.

When I was doubting whether I could make it as a serialized author, I'm glad they stuck with me until the end.

This series is my first venture into the manga world. When there is no predetermined outcome for yourself, "destiny is something you pave the way for yourself". But in that world, that's not something that can be easily said.

Of course, "soumates" come in different forms, but I'm glad that I could draw a story where the four of them could achieve a happy destiny.

But seriously how many times has the word "destiny" appeared? (LOL)

Thank you EVERYONE!

さち男.

Sachino

{ What is the Omegaverse? }

Hailing from Europe and the Americas, it is a special universe for BL. Originally intended as a parody of sci-fi works, it has sort of branched into the 3D realm. In so far, it depicts love between male werewolves and there are three categories. The alpha, beta and omega. From there, a hierarchy is formed based on the patriarchal system, except with types of humans. There are then many types of arrangements for the omegaverse, and countless versions of it. Since the originator of this idea is unknown, there is no set canon universe. It's this freedom to do whatever you want with it that makes the omegaverse so enticing.

After saying that, to a user reading something with a ton of different perspectives, and to have it all come together and read smoothly is a very high hurdle to overcome. To bring readers to more easily understand and enjoy this world, that is the reason for the "Omegaverse Project". The Omegaverse Project aims to collect works that bring surprise and excitement, and boundless possibilities to the BL world. And all of these works depicting this world have been gathered together.

{ α , β and Ω are: }

Long long ago, there existed two genders: Male and female. However, due to the rapid decline of the human population, developments had taken place. The only difference between male and female were outward appearances. All humans became capable of procreation. The males had tubes connecting their anuses to their wombs. And when females were stimulated, their clitoris would also become erect and expel semen.

- α
- Males have a "heat"
 - The amount of semen during ejaculation is the highest among the three classes
 - They have random heats
 - They carry pheromones that differentiate them by class

- β
- There is no Estrus
 - As a partner to an omega, they are turned on, but maintain control over reason

- Ω
- Has Estrus
 - Estrus happens for seven days every month
 - Rare chance of becoming pregnant outside of Estrus
 - Has sex pheromones

{ How Pregnancy Works }

The males have tubes connecting their anuses to their wombs.
And when females are stimulated, their clitoris also becomes erect and expels semen.

(α Male)

(β/Ω Male)

($\alpha/\beta/\Omega$ Female)

There are glands called a "proct" on the penis. During the so-called "heat", when they ejaculate, it expands and will not be able to withdraw from their partner's sexual organ. Ejaculation during a Heat can last for 20-30 minutes, expelling 20ml of semen (average for Betas and Omegas is 2ml.) with a 100% success rate of impregnation. During normal times, it is around 12ml, still more than Betas and Omegas.

{ What is Estrus? }

The first time estrus happens is between the ages of 12-18. (Same goes for an alpha's heat).

Ω

An omega's hormones produce sex pheromones that are mixed in with their sweat and bodily fluids. Alphas and betas do not produce these pheromones. Because of this, these pheromones are dubbed, "omega pheromones".

During the month, a large amount of omega hormones accumulate within the body for three weeks. During Estrus, the large amount of omega hormones are converted into sex pheromones and released. This release of pheromones continues for approximately seven days. This is a special process for omegas who originally have a low impregnation rate to seduce the alphas with a high fertility rate.

α

When they sense the omega pheromones, they suddenly go into "heat". Once in "heat", all concave's thought is abandoned and they may possibly become violent.

{ The Mate System Between Alphas and Omegas }

When having intercourse during Estrus, the alpha will bite the omega near the neck, and the two become 'mated'. For an alpha, there are no changes. But to an omega, if they are mated during Estrus, they become unable to have sex with partners outside of their mate. If they have sex with other partners, dizziness, headaches, and vomiting will occur. Generally, it is unheard of to reverse a mating.

(α biting Ω)

(Bite Shape)

In order to be mated, the alpha will bite here. The bite marks remain forever.

(Collar)

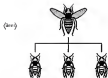

There are omegas who wear collars to protect them from the bite of undesirable alphas.

{ Soul Bonding }

There are times when an alpha and omega's pheromones (unrelated to Estrus) attract each other. For them, they feel it at first sight and will definitely fall in love with each other. However, this is a rare case and many consider this to be an 'urban legend'.

{ The Mechanisms of Mating }

With the queen bee's hierarchical phenomenon, all female others other than the queen bee do not have developed ovaries, so take on the role of worker bees.

When an alpha bites an omega's neck during Estrus, that is the trigger. When the two pheromones of different classes are connected, they present themselves in the omega. The result being that the omega is incapable of having sex with anyone other than their mate. And even if the omega goes through Estrus, it will not trigger the Heat of a phos other than their mate. There are suppressants to suppress the Heat, but it is still not a definite answer.

{ The Caste System }

Is the only one where males have "knobs" and have a high chance of reproduction with omegas. Aside from that, they also have a high sperm count. Although there is no other difference than in their pheromones, in society, they stand above the betas and omegas.

They make up the majority of the population, and are basically used by the alpha. But in recent years, due to their hard work they have been able to marry alphas, so have sometimes reached the same ranks as alphas.

They experience estrus, and due to their lack of sperm productivity, they hold a lower position than the alpha and beta. Before the invention of suppressants, they would stay at home and were not allowed to work outside.

{ Out of 10 people - }

2 are Alphas,

7 are Betas,

1 is an Omega.

{ The Life of an α , β and Ω }

School

Co Ed Schools

They have a special curriculum for alphas. Betas and omegas are also able to enter this school, but those courses are optional for them. It's a class established on the idea that alphas are more talented and capable than betas and omegas, so the level is much higher.

Alpha schools

These schools are exclusive to alphas. They have exclusive schools for alphas, but none for betas or omegas.

Work

(α)

Presidents and executive positions are mostly possessed by alphas. And there are a lot of family-run companies. Alphas have strong connections with each other, so it is easy for them to join the working world.

(β)

There are betas who are as capable as alphas and hold the same positions as them, but the majority of them work under alphas.

(Ω)

Since the invention of suppressants, they have been taking on more subordinate roles. In order to overcome prejudice, the government subsidizes employment for omegas.

Marriage

Alphas, betas and omegas all normally marry within their classes. Especially alphas, who desire to preserve their date blood and keep their blood pure. The probability of children born are Beta-Alpha-Omega, and so to increase the chances of an alpha, alphas will marry each other. When they do that, they monopolize the privileged class. And because of that, betas and omegas strive to marry an alpha. It was only after the human rights movement in 1912 that marriages between omegas and betas, or omegas and alphas began increasing. However, it's still not safe to say that interracial marriage is a common thing.

{ To protect oneself, an omega must: }

1. Preserve their virginity to their schools starting from middle school onwards.
2. Omegas must preserve their virginity to their masters.
3. They must use suppressants and special medicine.

{ Estrus suppressants are: }

In the 1930s, special medicine for omegas was released. Using the alpha hormone as a base, it suppresses the omega hormones and decreases the amount of pheromones released. The effectiveness varies from person to person, and there are those who have allergies and those that it causes effects on. For those, they are still awaiting the development of new medication.

(Pill)

Once a day, one pill needs to be taken. It should not have any side effects that might affect the people.

(Special medicine)

When you get this, expect no wonder or magic. The best will subside with a few minutes, but there are strong side effects to this, including headache, vomiting, dizziness, etc. It is to be used in school, work, stations and public areas.

{ What is Estrus? }

The first time estrus happens is between the ages of 12-18. (Same goes for an alpha's heat)

Ω

An omega's hormones produce sex pheromones that are mixed in with their sweat and bodily fluids. Alphas and betas do not produce these pheromones. Because of this, these pheromones are dubbed, "omega pheromones"

-When fertilized female eggs would also become erect and expel semen

These are glands called a "testis" on the penis. During the so called "test", when they ejaculate, it expands and will not be able to withdraw from their partner's sexual organ. (not retracting)

PEOPLE CAN
CHANGE

For generations we were
a prestigious family that
served the Salovei family.

An alpha of the Kato family.

Even if I left him
alone, I would still eventually
become the manager of
the estate.

I didn't have a single
worry about my future.

Just by
saying that I was
an alpha, people
naturally oriented
around me.

I flaunted
my alpha
status.

At the
time, I took my
responsibilities
lightly.

And I would
go out and play
every day.

And there
were also betas who
were jealous
of that.

I never
noticed.

I'VE LIVED
WITH SO MUCH
POSSIBILITIES

Of course
they were taken
away by the sea
and I received
a major
scolding

I WON'T
LIKE THE YOUNG
MASTER, WHO WAS
BURNED WITH A
PASTOROUS
FAMILY

I WAS
BLESSED

JUST
LIKE THEY
SAID,

LIKE THAT.

WHY
HAVE YOU TOLD
ME THAT?

DO YOU
CAN OPEN
UP TO ME

NEVER

FORGET IT!

ARE YOU
TRYING TO FIND
SOME SORT OF
REASON?

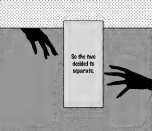

NO!!

THIS IS
THE CASE OF A
TRISTED MAN

Who fell in
love with a
common beta
servant

There was a
young alpha
lady from
a prestigious
background.

ONCE UPON
A TIME IN A
LARGE FORT
TOWN, THERE

So the two
decided to
separate.

However,
conforming
to her life
style, she had
to marry some-
one of higher
status.

And that was
the unfortunate
twisted
portion.

But she left
behind a child
growing in
that servant.

And yet, for
the sake of
the child of
her beloved,

After
knowing about
the servant's
relationship to
the lady, she
was chased
out.

She raised a
child like any
normal
person.

She worked
hard like any
normal
person.

...I HAVE
DESTINY

YOU
CANNOT...

DESTINY
TALK

And like
a normal
person, her
body broke.

WANT A
POOR CHILD...IF
ONLY YOU WERE
NEVER BORN.

Like
a normal
person, she
uncovered a
bloody red

YOU
AND I WERE
ABANDONED.

Like
a normal
person,
she died.

IT'S A HORROR
STORY

There appeared
a man who was
a brother of the
family that
bought the rights
that had aban-
doned him.

This twisted
child became
alone in the
world

But
there
was...

He taught
that twisted
child all that
he needed to
live

IS THIS
ANY KIND OF
ATTACHMENT??

RIGHT
AND ME

because is
a servant of
a profit-
less family

And
surprisedly.

And then under
that better's
room-and-
after.

He began
to work.

SCENE

WHENEVER I
GO, THEY ALL
DISAPPEAR
AND I AM
ALONE

SLIDE

All around
him were the
alphas that
he despised

He strongly felt that if he could make this child so happy that those who were so unfair to him felt jealous, this, he could be saved.

I CAN'T BUDGE FOR THAT ANGRY CHILD.

I WOULD LOVE TO LOVE

HEY LADY!

Just
HI...

{ What is the Omegaverse? }

Coming from Europe and America we welcome a very special universe for BL. Originally intended as a parody for so fi works, it has sort of branched into the BL realm. In so fi, it depicts love between male characters, which involves three categories. The alpha, beta and omega. From there, a hierarchy is formed based on the patriarchal system, except with types of humans. There are then many types of arrangements for the omegaverse, and countless versions of it. Since the originator of this idea is unknown, there is no set canon universe. It's the freedom to do whatever you want with it that makes the omegaverse so enticing.

After saying that, to a user reading something with a ton of different perspectives, and to have it all come together and read smoothly is a very high hurdle to overcome. To bring readers to more easily understand and enjoy this world, that is the reason for the "Omegaverse Project". The Omegaverse Project aims to collect works that bring surprise and excitement, and boundless possibilities to the BL world. And all of those works depicting this world have been gathered together.

{ α , β and Ω are: }

Long long ago, there existed two genders: Male and female. However, due to the rapid decline of the human population, developments had taken place. It became that the only difference between male and female were outward appearances. All humans became capable of pregnancy.

- α**
- Males tend to be tall
 - They have more teeth
 - The amount of semen during ejaculation is the highest among the three classes
 - They carry pheromones that attract mates from afar.

- β**
- There is no Estrus
 - As a partner to an alpha, they are turned on, but must be careful over stress.

- Ω**
- Sex Estrus
 - Estrus happens for seven days every month
 - Have a chance of becoming pregnant outside of Estrus
 - Sex via pheromones

In the only one where males have 'heaps' and have a high chance of reproduction with omega. Aside from that, they also have a high sperm count. Although there are other differences than in their phenotypes, in society, they stand above the beta and omega.

They make up the majority of the population, and are basically used by the alpha. But in recent years, due to their hard work they have been able to marry alpha, so have some males reached the same rank as alpha.

They experience estrus, and due to their lack of sperm productivity, they hold a lower position than the alpha and beta. Before the invention of suppressors, they would stay at home and were not allowed to work outside.

{ Out of 10 people— }

1 are Alphas,

7 are Betas,

1 is an Omega

{ The Life of an α , β and Ω }

School

Co Ed Schools

They have a special curriculum for alphas. Betas and omegas are also able to enter this school, but those courses are optional for them. It's a class established on the idea that alphas are more talented and capable than betas and omegas, so the level is much higher.

Alpha schools

These schools are exclusive to alphas. They have exclusive schools for alphas, but none for betas or omegas.

Work

(α)

Presidents and executive positions are mostly possessed by alphas. And there are a lot of family-run companies. Alphas have strong connections with each other, so it is easy for them to join the working world.

(β)

There are betas who are as capable as alphas and hold the same positions as them, but the majority of them work under alphas.

(Ω)

Since the invention of suppressants, they have been taking on more subordinate roles. In order to overcome prejudice, the government subsidizes employment for omegas.

Marriage

Alphas, betas and omegas all normally marry within their classes. Especially alphas, who desire to preserve their date blood and keep their blood pure. The probability of children born are Beta-Alpha-Omega, and so to increase the chances of an alpha, alphas will marry each other. When they do that, they monopolize the privileged class. And because of that, betas and omegas strive to marry an alpha. It was only after the human rights movement in 1912 that marriages between omegas and betas, or omegas and alphas began increasing. However, it's still not safe to say that interracial marriage is a common thing.

{ To protect oneself, an omega must: }

1. Preserve their virginity up to their schools starting from middle school onwards.
2. Omegas must preserve their virginity to their masters.
3. They must use suppressants and special medicine.

{ Estrus suppressants are: }

In the 1930s, special medicine for omegas was released. Using the alpha hormone as a base, it suppresses the estrus hormones and decreases the amount of pheromones released. The effectiveness varies from person to person, and there are those who have allergies and those that it causes effects on. For those, they are still awaiting the development of new medication.

(Pill)

Once a day, one pill needs to be taken. It should not have any side effects, but slightly, it makes him nervous people.

(Special medicine)

When you get this, you get it once you are or right. The heat will subside with a few minutes. But there are strong side effects to this, including headache, vomiting, dizziness, etc. It is not to be used in school, work, stations and public areas.

At that moment

This is what
my master
thought

THAT THEY
HAVE TESTED
YOU.

For the
Destiny.

that you
hate so
much.

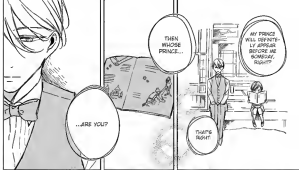

I AM
GRATEFUL
FOR IT.

The way to
forgive it is...

YOU ARE
NOT MY

SOMEDAY,
RIGHT?

...ARE YOU?

THAT'S
RIGHT!

...YOU ARE NOT
SATISFIED WITH
THIS KIND OF
DESTINY?

I WILL
DEFINITELY
MAKE YOU
SAY THAT YOU
LIKE ME!!

I WILL
GRADUALLY
MAKE YOU
BELIEVE IT.

Can I..

..really
become one?

..allowed to
become one?

Am i
really..

Someone
special.

The most
important
person to
you.

REALLY NOW!

WHERE DID ALL YOUR BRAVADO FROM BARBERS GO?

WE'RE LONG PAST THE AGE OF YOUNG LOVE.

OR ARE YOU AFRAID, MR. ALPINE?

SO THAT WHEN
YOU CREATE A
MARK THAT
WILL NEVER
DISAPPEAR.

AT THAT
POINT ...

BEFORE THEY
DISAPPEAR,
BITE ME
AGAIN.

WOUND ME
AGAIN AND
AGAIN.

LET THE
WOUNDS
FEETER...

...AND
LEAVE A
FETTER
COLOR.

Or because
it's sad,

UNDERSTOOD.

It's not
because it's
painful.

But it's because
it's overwhelming.

Is this what you
call "happiness"?

CHATTER

CHATTER

WHEN DID YOU...
YOU...

WEREN'T YOU THE ONE WHO ASKED ME TO CUT MY HAIR?

Why?

✕ PLEASE GO TO CHAPTER 1

TURN

YOU
BIRD-
BRAIN.

YOU'VE
SAID TOO
MUCH, YOU
BASTARD!

Just a
word.

FOR
ME...

I GUESS I CAN
SORT OF IMAGINE
HIM AS A BIG
BROTHER.

SUE'S NOW
LIVING WITH
HER SOULMATE.

THAT'S RIGHT,
THEY FINALLY
FOUND MY
EX-WIFE.

STAMP

I REALLY
WANTED TO
BRING HIM BACK
OVER FROM THE
SAUND'S FAMILY,
BUT I GOT
REJECTED.

ALSO, MY
EX-WIFE HAD
SOMEONE
ELSE'S KID A
WHILE BACK.
THAT KID'S
PRETTY
STILLAR.

THAT'S
PROBABLY
BECAUSE THERE
IS THAT ANFUL
BUTLER OF
YOURS WITH
TERRIFYING
EYES?

THAT'S
GREAT TO
HEAR.

HEYAHOA!
TOMAROU-KUN!

I HOPE YOU
CAN BE OF
SERVICE TO
JIROU. WHAT
DO YOU
THINK?

BECAUSE HE
HAS A VERY
EXCELLENT
WIFE.

JIROU-
SAMA WILL
CERTAINLY
BE ALL
RIGHT.

SHUT

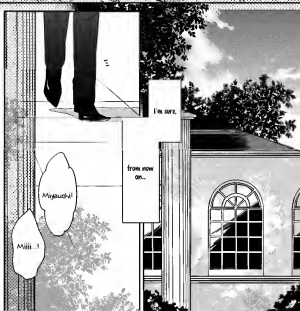

I
HAVE
TO
SAY...

DESTINY
IS...

ruffle

POOPED

This wish of
mine...

IT'S A BIT
EARLY, BUT
DO YOU GUYS
WANT "SUND
TAY?"

THOSE TWO
SEEM TO
REALLY
LIKE YOU.
